

Sr. No.	Login	Module	Screen / Task	Est. Hours
1	System	Security & Hardening	Backend authentication validation	2
2	System	AI Optimization	Response caching & token/ cost controls	5
3	System	AI Optimization	Structured AI response formatting	4
4	System	Cloud Storage	AWS S3 setup & configuration	2
5	System	Cloud Storage	Food / menu / OCR image upload integration	4
6	System	Cloud Storage	Audio upload integration	4
7	System	Cloud Storage	Secure upload/ download & metadata tracking	4
8	System	iOS Readiness	Firebase & Google Sign-In iOS setup	4
9	System	iOS Readiness	iOS-specific testing & bug fixes	6
10	System	iOS Readiness	TestFlight build & distribution	3
11	User	Subscription	Free trial rules & expiry handling	4
12	User	Subscription	Feature gating & usage limits	5
13	User	Payment	Renewal / cancellation / failed payment flow	6
14	Admin	Admin Portal	Admin login screen	4
15	Admin	Admin Portal	Dashboard — KPIs & app usage analytics	5

16	Admin	Admin Portal	User management (view / search by ID)	6
17	Admin	Admin Portal	Diet profiles viewer	5
18	Admin	Admin Portal	AI recommendation history log	6
19	Admin	Admin Portal	OCR / scan activity log	5
20	Admin	Admin Portal	Meal plan viewer	5
21	Admin	Admin Portal	Grocery list viewer	4
22	Admin	Admin Portal	Colonoscopy prep schedules viewer	4
23	Admin	Admin Portal	Subscription management	6
24	Admin	Admin Portal	Failed requests log	4
25	System	Notifications	FCM push notification setup	5
26	User	Notifications	Meal & grocery reminders	4
27	User	Notifications	Colonoscopy prep reminders	4
28	User	Notifications	Trial / subscription alert notifications	4
29	User	Notifications	Notification preferences screen	4
30	Admin	Dietician Workflow	Review queue — list & detail view	6
31	Admin	Dietician Workflow	Approve / reject / edit / comment on plan	6
32	Admin	Dietician Workflow	Status tracking & user notification on review	5

33	User	Meal Plan	Meal plan generation improvements	6
34	User	Meal Plan	Grocery list conversion & nutrient extraction	5
35	System	Security & Hardening	API error handling improvements	4
36	User	Meal Plan	Caching, deduplication & fallback handling	5
37	User	Home Screen	Diet summary & recommended/avoid foods	8
38	User	Home Screen	Scan shortcuts & meal plan widget	6
39	User	Home Screen	Colonoscopy prep status & reminders widget	5
40	User	Home Screen	Recent activity & subscription status	5
41	System	Infrastructure	Production domain, HTTPS/SSL setup	4
42	System	Infrastructure	Dockerized deployment & load balancer	6
43	System	Infrastructure	Staging & production environments	5
44	System	Infrastructure	Health checks, monitoring & logging	5
45	System	Infrastructure	Backups & deployment documentation	4
46	System	Security & Hardening	Basic rate limiting	4

47	System	Store Submission	App Store metadata, screenshots & privacy policy	5
48	System	Store Submission	Play Store metadata & release notes	4
49	System	Store Submission	Test builds, review notes & rejection fixes	6
50	System	Database Upgrade	PostgreSQL schema setup (users, diets, plans)	8
51	System	Database Upgrade	Migrate recommendations, files, notifications	6
52	System	Database Upgrade	Subscriptions, admin users & validation records	5
53	System	CI/CD & QA	Staging/production build & deployment pipeline	6
54	System	CI/CD & QA	API & regression testing	8
55	System	CI/CD & QA	Mobile device & payment testing	6
56	System	CI/CD & QA	Notification & admin portal testing	5
57	System	AI Optimization	Optimize AI recommendation & meal plan flow	6
58	System	CI/CD & QA	Bug fixing, release notes & store readiness	6
59	System	AI Optimization	OCR workflow optimization	4
60	System	AI Optimization	Chatbot memory & retry/timeout handling	5
